Rs.370,000

Description:

SONY HXR-NX200 4K Camcorder Price & Specs

Sony HXR NX200 in Pakistan is an entry-level camcorder suitable for formal and informal, internal and external event recording.

Weight

Weighing at around 2100 grams with a lens hood, eyecup, and battery (NPF570), Sony HXR NX200 is easy to carry.

Zoom

Standard 12x zoom by G lens an additional 150% in 4K and 200% in HD. The aperture size of F2.8 - F11 with manual and auto selector options makes it a suitable choice for professional and amateur recording.

Recording

Video recording time of about 150 minutes makes it suitable for smaller events. On the other hand, it could play for nearly 240 minutes on a full battery.

Recording format

Video can be recorded in XAVCS at 2160/25p and 1080/50p while AVCHD records at 1080/50i format.

Camera

Advertised as 20MP, Sony HXR NX200 has an effective resolution of about 14million pixels. A type 1.0 sensor offers a high-quality image in FHD or 4K at 50Mbps and offers low noise and a less blurry image due to more light entrance. Gamma curve technology avoids oversaturation of image quality and produces accurate deep and vibrant colors, its 6 option selectable Gamma curve gives the flexibility to work in different conditions.

Microphone

It has an omnidirectional built-in internal microphone. An external microphone can be installed easily. The multi-interface shoe allows connecting and controlling wireless microphone systems as well.

ND Filter

4 levels of built-in ND filter give ease of excellent exterior filming.

Storage

Memory stick pro duo and SD are compatible with media storage. Recording time is enhanced by 2 memory card slots. Relay mode automatically switches recording from 1st to 2nd memory card when the first is full.

Connectivity

NX200 provides a wide range of connectivity options which include HDMI and Multi/Micro USB.

Price

Sony HXR NX200 Price in Pakistan is approximately PKR 350,000 to PKR 375,000.
