Joby GorillaPod 1K Flexible Ball Head Kit Overvie w

Boasting remarkable versatility for supporting your ge ar, the GorillaPod 1K Flexible Mini - Tripod from Joby has legs made up of several joints that allow you to wrap it around objects and adapt it for use in uneven ground. With a load capacity of 2.2 lb, it can reliably hold equipment such as flashes, video li ghts, and most mirrorless cameras. The notably compact construction of the tripod, featuring a 8.3" height and 5.1 oz weight, makes it easy to store or carry it while travelling.

To help improve its grip and stability on unstable surfaces, the joints and f eet of the GorillaPod 1K are rubberized in certain areas. The rest of the tripod is made of stainless steel and a proprietary ABS plastic designed to provide durability and stable performance. Featuring a 1/4" -20 screw for mounting, the stand can be used d irectly with your gear or attached to an optional ball head for further shooting capabilities.

- Can be used with cameras, lights, speakers, and any other gear weighing up to 2.2 lb that is compatible with its standard 1/4" -20 screw mount
- Flexible jointed le gs allow you to secure your equipment to most surfaces
- Compact with a weight of 5.1 oz and height of 8.3", can be transported in a small bag or easily carried in your hands or pocket
- Rubberized joint rings and feet to provide enhanced stability in difficul t terrain
- Durable stainless steel and ABS plastic construction

BallHead 1 K

Supporting equipment weighing up to 2.2 lb, the BallHead 1K from Joby uses a standard 1/4" -20 threaded screw to mount compatible mirrorless cameras, flashes, and video lights.

It features full 360° panning and 90° tilting for nearly unrestricted movement, complemented by a locking knob to help you retain the ideal position once you have found it.

At only 1.8 oz and with a height of 2.4", the BallHead 1K is portable and can be easily carried without weighing you down. It is designed to be paired with the GorillaPod 1K stand and works with several Joby pro-level accessories that can extend the versatility of your ball head. However, it can also be used on any standard tripod with a 1/4"-20 mount.

- Standard 1/4"-20 screw for attaching equipment weighing up to 2.2 lb
- 360° panning and 90° tilt for optimal position control
- Portable design weighing only 1.8 oz and with a height of 2.4"
- Works with Joby pro-level accessories such as the GripTight PRO Mounts and GorillaPod Arms that allow you to use GoPro adapters, flash clips, and microphones
- Can be deployed on the GorillaPod 1K stand or any other tripod with a standard 1/4"-20 mount
