- 1/8" Headphone Monitoring Jack
- Direct Mix Control

Rode NT-USB USB Microphone Overview

The NT-USB USB Microphone from Rode is a cardioid, side-address USB microphone that is capable of capturing audio in up to 16-bit / 48 kHz resolution. It has an integrated headphone amplifier and 1/8" stereo headphone jack that allows for monitoring. The on-mic Direct Mix Control allows you to select between mic input and source input for monitoring.

The NT-USB is compatible with the use of an optional camera kit. Included with the mic are a pop shield, a tripod desk stand, a ring mount, a 20-foot long USB cable, and a storage pouch.
