DESCRIPTION:

The EOS 1300D packs in all the fun of photography, which is why we recommend it to users looking for their very first EOS DSLR camera. It uses an 18-megapixel APS-C size sensor and the DIGIC 4+ image processor - which even professional photographers recognize as high performance with core features. It also has abundant auto shooting features and is compatible with over 70 EF/EF-S lenses, allowing you to take beautiful photos like a professional, regardless of subject and genre. Wi-Fi and NFC compatibility allows easy file transfer to other devices. All the more convenient for sharing those wonderful photos on social media.
